- Absorption rate is one of the best measurements of real estate market activity.
- A 25% monthly absorption rate means that 25% of the current inventory can be expected to sell every month. In 4 months, without any additions to inventory, the entire inventory can be expected to be gone.
- Above 25% indicates a seller's market with no need to make concessions to list price provided the property is priced correctly.
- Below 15% indicates a buyer's market that makes it likely that there will be concessions in list price of up to 5% or more to conclude the sale.
- Between 15% and 25% indicates a balanced market with normal 2-3% concessions in list price to conclude the sale.
